A speedy and radical cure for Deafness, Pains, Noises, and Discharges from the Ears. This cel-corated remedy has been in use about ten years, and hundreds afflicted with deafness, deemed in-carable, have had their hearing promptly and permanently restored. It is a compound of four different oils, one of which is obtained from a cer-nain kind of walnut. It dissolves the Hard Wax in the car; supplies it where it is deficient, ex-cites to action the torpid auditory nerves, and seldom fails to effect a perfect cure when the Ear is perfect in its structure. It is arich boon to the afflicted, as hundreds have testified. Buy it, use Sole agent for Middlebury and vicinity,

Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. NEW ENGLAND AILMENTS

THE ONLY REMEDY!

THE Eastern States, including New York and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people who have achieved me uncommon degree of prosperity; with a climate extremely trying to certain constitutions, and a seil of small fertility, they have contrived to surpass more favored communities in almost every thing that cenduces to social comfort and happiness. Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyspe psia and physical debility are prevalent among all classes. The first disease is produced by inattention to the digestive organs, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their aiment is chronic, and that they must bear with it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or derangement. Hundreds of tongues are ready to FIGHE Eastern States, including New York rangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful co-queror of dyspepsia, which is known as

DR. J. HOSTETTER'S CELEBRATED STOMACH BITTERS.

But that numerous class who devote them-selves to literary and other sedentary pursuits, selves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies. swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines which have been devised for the same object, the **BITTERS** do not act spasmodically, or with a temporary power—the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been afforded, by exercise, after the relief has been anortast, he need fear no return of the affliction. The debility natural to the encroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their declining days in physical ease; whereas they are now suffering from extreme weakness and nervousness. To this venerable class of people, HOSTETTER'S BITTERS may be commended as invaluable. The proprietors of this invigorator have, in addition, a deep gratification in assuring NURSING MOTHERS that they will find the BITTERS the best and safest of restoratives. Very few medicines are sangitioned by physicians as proper to be administered during the period of nursing; and this has obtained an universal preference. ease; whereas they are now suffering from ex-
